

## Project Manager (in Calgary, AB, Canada)

### Why you should work at BUTTING

Are you ready to join a dynamic and growing stainless steel distribution company that prides itself on delivering high-quality steel solutions to diverse industries across North America? Fantastic, because we are looking for you!

We are seeking a **Project Manager** to ensure projects are completed on time, within budget and requirements are met.

Within the BUTTING Group, our BUTTING Canada Team is the connecting link to the North American market. BUTTING Canada's obligation is to be a professional partner to its customers for a number of industries by providing profound manufacturing expertise and the BUTTING know-how. BUTTING Canada supplies our North American customers with welded pipes, machined and fabricated components, pressure vessels and storage tanks manufactured in our plants in Germany and China.

Join BUTTING Canada as a Project Manager and you will be part of an international, customer-centric team that is working in a modern office setting with flexible work hours. At BUTTING, we value our employees and we will support your growth and well-being with many extras and benefits.

### In this role, you will

- Lead the execution, procurement, monitoring and closure of projects on time and on budget
- Assist in purchasing and oversee the process to have products sourced from multiple vendors, according to customer specifications and project requirements
- Lead the communication with customers during the project execution
- Monitor fabrication progress at various vendors and location at the same time with schedules and assist customers with final inspections
- Facilitate meetings and provide detailed project reports to customers
- Support Sales Team for cost estimation of capital projects
- Build and maintain valuable relationships with suppliers and other parties within the influence of the company's activities
- Assisting with logistics of the projects and improvements of supply chain and transportation routes
- Identify and analyze potential risks and develop mitigation strategies

## What we're looking for

- 2 - 3 years of project management experience in the field of production (specifically fabrication) and / or engineering
- Ability to lead a project and ensure dates and budgets are adhered to
- Excellent organizational and problem-solving skills
- Willing to travel internationally
- Strong communication and interpersonal skills
- Experience reading and interpreting design, engineering and construction drawings is considered an asset
- Fluent in English, German is considered an asset

## What you can expect

- Extended medical, dental and vision coverage
- AD&D, life and travel insurance
- Paid sick days
- Opportunities for professional growth and career development
- Additional paid vacation days
- Flexible schedule
- On-Site parking
- Performance bonus based on Management's discretion

## What's next: Join BUTTING Canada

If you think you have the qualifications and skills to succeed in this role, don't hesitate and submit a cover letter and resume to [recruiting.buttingcanada@butting.de](mailto:recruiting.buttingcanada@butting.de). We're looking forward to hearing from you!

We wish to express our appreciation to all applicants for their interest and advise that only candidates selected for an interview will be contacted. Any personal information submitted will be managed with the strictest of confidentiality.
